AND SUBSIDIARIES

Notes to Consolidated Financial Statements
(Dollars in thousands, except share and per share data)
December 31, 1998, 1997 and October 31, 1996

(1) Significant Accounting Policies

- (a) Nature of Business Lamar Advertising Company ("LAC" or the "Company") is engaged in the outdoor advertising business operating approximately 71,900 outdoor advertising displays in 36 states. The Company's operating strategy is to be the leading provider of outdoor advertising services in most of the markets it serves, with a historical emphasis on providing a full range of outdoor advertising services in middle markets with a population ranking between 50 and 250 in the United States.

In addition, the Company operates a logo sign business in 18 states throughout the United States and in 1 province of Canada. Logo signs are erected pursuant to state-awarded service contracts on public rights-of-way near highway exits and deliver brand name information on available gas, food, lodging and camping services. Included in the Company's logo sign business are tourism signing contracts. Revenues of the logo sign business contributed approximately 8%, 10% and 10% of the Company's net revenues for the years ended December 31, 1998, 1997 and October 31, 1996, respectively.

- (b) Principles of Consolidation

The accompanying consolidated financial statements include Lamar Advertising Company, its wholly-owned subsidiary, The Lamar Corporation (TLC), and their majority-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

- (c) Property, Plant and Equipment

Property, plant and equipment are stated at cost. Depreciation is calculated using accelerated and straight-line methods over the estimated useful lives of the assets.

- (d) Intangible Assets

Intangible assets, consisting primarily of goodwill, customer lists and contracts, and non-competition agreements are amortized using the straight-line method over the assets estimated useful lives, generally from 5 to 15 years. Debt issuance costs are deferred and amortized over the terms of the related credit facilities using the interest method.

- (e) Investment Securities

Investment securities at December 31, 1997 consisted of the Company's investment in approximately 340,000 shares of common stock of Wireless One, Inc., a publicly-held company in the wireless cable business. The former Chief Executive Officer of Wireless One, Inc. is an employee and principal shareholder of the Company and has been nominated for election as a director of the Company at the 1999 Annual Meeting.

LAMAR ADVERTISING COMPANY
AND SUBSIDIARIES

Notes to Consolidated Financial Statements
(Dollars in thousands, except share and per share data)

The Wireless One, Inc. shares were classified as available-for-sale at December 31, 1997 and were carried at fair value with the unrealized gain or loss, net of the related tax effect, reported as a separate component of stockholders' equity. These shares were sold in May, 1998, resulting in a realized loss of \$875. The cost of the Wireless One, Inc. shares owned by the Company was \$1,250, and the market value was \$679 at December 31, 1997.

- (f) Impairment of Long-Lived Assets and Long-Lived Assets to be Disposed of

The Company accounts for long-lived assets in accordance with the provisions of Statement of Financial Accounting Standards (SFAS) No. 121, "Accounting for the Impairment of Long-Lived Assets and Long-Lived Assets to be Disposed Of." SFAS No. 121 requires that long-lived assets and certain identifiable intangibles be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

- (g) Deferred Income

Deferred income consists principally of advertising revenue received in advance and gains resulting from the sale of certain assets to related parties. Deferred advertising revenue is recognized in income as services are provided over the term of the contract. Deferred gains are recognized in income in the consolidated financial statements at the time the assets are sold to an unrelated party or otherwise disposed of.

- (h) Revenue Recognition

The Company recognizes revenue from outdoor and logo sign advertising contracts, net of agency commissions, on an accrual basis ratably over the term of the contracts, as advertising services are provided.

- (i) Income Taxes

The Company uses the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(Dollars in thousands, except share and per share data)

(j) Earnings Per Share

Earnings per share are computed in accordance with SFAS No. 128, "Earnings Per Share." The calculation of basic earnings per share excludes any dilutive effect of stock options, while diluted earnings per share includes the dilutive effect of stock options.

(k) Stock Option Plan

The Company accounts for its stock option plan in accordance with the provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees", and related interpretations. As such, compensation expense is recorded on the date of grant only if the current market price of the underlying stock exceeds the exercise price. SFAS No. 123, "Accounting for Stock-Based Compensation", permits entities to recognize as expense over the vesting period the fair value of all stock-based awards on the date of grant. Alternatively, SFAS No. 123 also allows entities to continue to apply the provisions of APB Opinion No. 25 and provide pro forma net income and pro forma earnings per share disclosures for employee stock option grants made in 1995 and future years as if the fair-value-based method defined in SFAS No. 123 has been applied. The Company has elected to continue to apply the provisions of APB Opinion No. 25 and provide the pro forma disclosure provisions of SFAS No. 123.

(l) Cash and Cash Equivalents

The Company considers all highly-liquid investments with original maturities of three months or less to be cash equivalents.

(m) Reclassification of Prior Year Amounts

Certain amounts in the prior years' consolidated financial statements have been reclassified to conform to the current year presentation. These reclassifications had no effect on previously reported net earnings.

(n) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(2) Change in Fiscal Year End

Effective January 1, 1997, the Company changed its fiscal year from a twelve-month period ending October 31 to a twelve-month period ending December 31. The year end change was made to conform to the predominant year ends within the

outdoor advertising industry. The consolidated statements of operations, stockholders' equity and cash flows are presented for the twelve months ended December 31, 1998, December 31, 1997, the two months ended December 31, 1996 and for the twelve-months ended October 31, 1996.

The 1996 and 1997 Notes are redeemable at the Company's option at any time on or after December 31, 2001 and September 15, 2002, respectively, at redemption prices specified by the indentures, and are required to be repurchased earlier in the event of a change of control of the Company. The indentures covering the 1996 and 1997 Notes include certain restrictive covenants which limit the Company's ability to incur additional debt, pay dividends and make other restricted payments, consummate certain transactions and other matters.

The Bank Credit Agreement provides the Company with a committed \$225,000 revolving credit facility and a \$75,000 incremental term facility to be funded at the discretion of the lenders. As of December 31, 1997, there was \$59,000 outstanding under the revolving credit facility and there were no borrowings under the incremental term facility. The revolving credit facility bears interest at a variable rate of interest based upon an applicable margin over LIBOR or the prime rate. The weighted average interest rate under the facility at December 31, 1997 was 7.93%.

The Bank Credit Agreement is guaranteed by the Company's subsidiaries and secured by the capital stock of the Company's subsidiaries. The Bank Credit Agreement contains various restrictive covenants, which require that the Company meet certain minimum leverage, and coverage ratios, restrict additional indebtedness, limit dividends and other restricted payments, limit capital expenditures and disposition of assets, and other restrictions. In September 1997, the Company amended certain financial and other covenants in the Bank Credit Facility, including increases in permitted capital expenditures and permitted acquisitions.

In July, 1998, the Company entered into a new Bank Credit Agreement (the "New Bank Credit Agreement") which consists of a committed \$250,000 revolving credit facility (the "New Revolving Credit Facility"), a \$150,000 term facility (the "Term Facility") and a \$100,000 incremental facility (The "Incremental Facility") funded at the discretion of the lenders. As of December 31, 1998, the Company had borrowings outstanding of \$150 million under the Term Facility, \$100 million under the Incremental Facility, and \$0 under the New Revolving Credit Facility. The New Bank Credit Agreement replaced the Company's previous Bank Credit Facility.

Availability of the line under the New Revolving Credit Facility is reduced quarterly beginning with the quarter ended March 31, 2000, in the following amounts:

March 31, 2000 - December 31, 2001	6,250
March 31, 2002 - December 31, 2003	9,375
March 31, 2004 - December 31, 2004	12,500
March 31, 2005 - December 31, 2005	18,750

The Term Facility will begin to amortize quarterly beginning September 30, 2000 in the following quarterly amounts:

September 30, 2000 - December 31, 2000	7,500
March 31, 2001 - December 31, 2001	3,750
March 31, 2002 - December 31, 2005	7,500

The Incremental Facility will begin quarterly principal reductions of between 1% and 2% of the outstanding balance at the date the loans begin to amortize, beginning with the quarter ended March 31, 2001 and ending June 30, 2006.

The Incremental Facility and the Term Facility bear interest at a variable rate of interest based on the applicable margin over LIBOR or the prime rate. The weighted average interest rate on borrowings under the Bank Credit Agreement at December 31, 1998, was 7.37%

Revolving credit loans may be requested under the New Revolving Credit Facility at any time prior to maturity. The loans bear interest, at the Company's option, at the LIBOR Rate or Chase Prime Rate plus applicable margins, such margins being set from time to time based on the Company's ratio of debt to trailing twelve month EBITDA. EBITDA is defined in the New Bank Credit Agreement as operating income before depreciation and amortization, a commonly used measure of financial performance. The New Bank Credit Agreement contains restrictive covenants comparable to those under the prior agreement, and of a sort customary in credit facilities for outdoor advertising companies. The terms of the Company's credit facility and the indentures relating to the Company's outstanding notes restrict, among other things, the Company's ability to:

- o dispose of assets;
- o incur or repay debt;
- o create liens; and
- o make investments.

Under the Company's credit facility the Company must maintain specified financial ratios and levels including:

- o cash interest coverage;
- o fixed charge coverage;
- o senior debt ratios; and
- o total debt ratios.

The \$103,949 of 9 1/4% Senior Subordinated Notes are due 2007, with interest payable semi-annually on February 15 and August 15 of each year, and were previously issued by OCI. The Notes are senior subordinated unsecured obligations of the Company, subordinated in right of payment to all senior indebtedness of the Company, and are senior to all existing and future subordinated indebtedness of the Company.

In November 1996, the Company commenced a tender offer for all of its \$100,000 outstanding principal amount of 11% Senior Secured Notes due 2003 (the "1993 Notes"). As of December 31, 1997, approximately \$98,827 of the 1993 Notes were tendered to the Company and retired. As a result of this tender offer and the extinguishment of other credit facilities, the Company recorded a loss on debt extinguishment of \$9,514, net of income tax benefit of \$5,660, during the two months ended December 31, 1996 (see Note 2).

	=====	=====

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible.

Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more likely than not the Company will realize the benefits of these deductible differences. The amount of the deferred tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carryforward period are reduced.

(11) Related Party Transactions

Affiliates, as used within these statements, are persons or entities that are affiliated with Lamar Advertising Company or its subsidiaries through common ownership and directorate control.

As of December 31, 1998, and December 31, 1997, debentures and ten year subordinated notes totaling \$16,749 and \$19,153, respectively, are owned by shareholders, directors and employees. Interest expense under the debentures and ten year subordinated notes during the years ended December 31, 1998, December 31, 1997, and October 31, 1996 was \$1,497, \$1,719 and \$494, respectively.

The Company purchased approximately \$1,810 and \$3,462 of highway signs used in its logo sign business from Interstate Highway Signs Corp., ("IHS") during the years ended December 31, 1998 and 1997, respectively. IHS is a company which is majority owned by certain directors, officers and stockholders of the Company.

(12) Stockholders' Equity

On December 31, 1997, the Board of Directors approved a three-for-two split of its Class A and Class B common stock subject to the approval by the shareholders of an increase in the authorized number of shares of Class A and Class B common stock. On February 26, 1998, the shareholders approved an increase in the authorized number of shares of Class A common stock to 75,000,000 and Class B common stock to 37,500,000. The stock split, which was effected by means of a 50% stock dividend, was paid to shareholders on February 27, 1998. Par value of the common stock remained unchanged at \$.001. Common stock and additional paid in capital were adjusted to reflect the split as of December 31, 1997. All references to share and per share information in the consolidated financial statements and related footnotes have been restated to reflect the effect of the split for all periods presented.

During 1995 and 1996, the Company repurchased 3.6% and 12.9%, respectively, of its then outstanding common stock (1,830,750 and 5,427,305 shares, respectively) from certain of its existing stockholders for an aggregate purchase price of approximately \$4 million. The terms of such repurchases entitled the selling stockholders to receive additional consideration from the Company in the event that the Company consummated a public offering of its common stock at a higher price within 24 months of the repurchase. In satisfaction of that obligation, upon completion of the Company's initial public equity offering in August 1996, the Company paid the selling stockholders an aggregate of \$5.0 million in cash and issued to them ten-year subordinated notes in the aggregate principal amount of \$20,000. The notes bear interest at 8% (1% above the ten-year treasury note rate when issued) and are payable in monthly installments of \$167, plus interest. The balance outstanding under these notes at December 31, 1998 and December 31, 1997, was \$15,333 and \$17,319, respectively.

In June, 1998, the Company completed a public offering of 6,375,000 shares of Class A Common Stock at \$29.00 per share. Net proceeds to the Company after underwriting discounts from the equity offering were \$177.5 million. These proceeds were used to pay down outstanding bank debt of approximately \$173.0 million with the remainder used for operations.

In December, 1998, the Company completed a public offering of 6,900,000 shares of Class A Common Stock at \$35 per share. Net proceeds to the Company after underwriting discounts from the equity offering were \$219.8 million. These proceeds were used to pay down outstanding bank debt of approximately \$99.0 million with the remainder used for debt reduction and acquisitions in 1999.

Notes to Consolidated Financial Statements
(Dollars in thousands, except share and per share data)

The rights of the Class A and Class B common stock are equal in all respects, except holders of Class B common stock have ten votes per share on all matters in which the holders of common stock are entitled to vote and holders of Class A common stock have one vote per share on such matters. The Class B common stock will convert automatically into Class A common stock upon the sale or transfer to persons other than permitted transferees (as defined in the Company's certificate of incorporation, as amended).

(13) Stock Option Plan

In 1996, the Company adopted the 1996 Equity Incentive Plan (the "1996 Plan"). The purpose of the 1996 Plan is to attract and retain key employees and consultants of the Company. The 1996 Plan authorizes the grant of stock options, stock appreciation rights and restricted stock to employees and consultants of the Company capable of contributing to the Company's performance. Options granted under the 1996 Plan generally become exercisable over a five-year period and expire 10 years from the date of grant. The Company initially reserved an aggregate of 3,000,000 shares of Class A Common Stock (as adjusted for the Company's February 1998 three-for-two stock split) for awards under the 1996 Plan. In September, 1998, the Board of Directors of the Company voted to increase the number of shares reserved for issuance under the 1996 Plan by 1,000,000 shares to 4,000,000 shares, subject to the approval of the stockholders of the Company, at its next regularly scheduled shareholders' meeting.

The Company has adopted the disclosure-only provisions of Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation." Accordingly, no compensation cost has been recognized for the stock option grants. Had compensation cost for the Company's stock option plan been determined based on the fair value at the grant date for awards in 1996, 1997 and 1998, consistent with the provisions of SFAS No. 123, the Company's net earnings (loss) and earnings (loss) per share would have been reduced to the pro forma amounts indicated below:

	Year Ended December 31, 1998 ----	Year Ended December 31, 1997 ----	Two Months Ended December 31, 1996 ----	Year Ended October 31, 1996 ----
Net earnings (loss) applicable to common stock - as reported	\$ (12,255) =====	2,476 =====	(8,115) =====	10,484 =====
Net earnings (loss) applicable to common stock - pro forma	\$ (15,145) =====	(603) =====	(8,666) =====	8,891 =====
Earnings (loss) per common share - as reported (basic and diluted)	\$ (.24) =====	.05 =====	(.18) =====	.25 =====
Earnings (loss) per common share - pro forma (basic and diluted)	\$ (.29) =====	(.01) =====	(.19) =====	.22 =====

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions used:

Grant Year ----	Dividend Yield -----	Expected Volatility -----	Risk Free Interest Rate -----	Expected Lives -----
1998	0%	59%	5%	4
1997	0%	40%	6%	3
1996	0%	53%	6%	3

Notes to Consolidated Financial Statements
(Dollars in thousands, except share and per share data)

The Company sponsors The Lamar Corporation Savings and Profit Sharing Plan covering employees who have completed one year of service and are at least 21 years of age. The Company matches 50% of employees' contributions up to 5% of related compensation. Employees can contribute up to 15% of compensation. Full vesting on the Company's matched contributions occurs after five years. Annually, at the Company's discretion, an additional profit sharing contribution may be made on behalf of each eligible employee. In total, for the years ended December 31, 1998, December 31, 1997 and October 31, 1996, the Company contributed \$952, \$1,181 and \$1,262, respectively.

The Company sponsors a Deferred Compensation Plan for the benefit of certain of its senior management who meet specific age and years of service criteria. Employees who have attained the age of 30 and have a minimum of 10 years of service are eligible for annual contributions to the Plan generally ranging from \$3 to \$8, depending on the employee's length of service. LAC's contributions to the Plan are maintained in a "rabbi" trust and, accordingly, the assets and liabilities of the Plan are reflected in the balance sheet of LAC. Upon termination, death or disability, participating employees are eligible to receive an amount equal to the fair market value of the assets in the employee's deferred compensation account. The Company has contributed \$406, \$190 and \$182 to the Plan during the years ended December 31, 1998, December 31, 1997, and October 31, 1996, respectively. Contributions to the Deferred Compensation Plan are discretionary and are determined by the Board of Directors.

The Company is the subject of litigation arising during the normal course of business. In the opinion of management and the general counsel of the Company, those claims will not have a material impact on the financial position, results of operations or liquidity of the Company.

(15) Summarized Financial Information of Subsidiaries

Except as set forth below, separate financial statements of each of the Company's direct or indirect subsidiaries that have guaranteed the Company's obligations under the 1996 Notes and the 1997 Notes (collectively, the "Guarantors") are not included herein because the Guarantors are jointly and severally liable under the guarantees, and the aggregate assets, liabilities, earnings and equity of the Guarantors are substantially equivalent to the assets, liabilities, earnings and equity of the Company on a consolidated basis.

Summarized financial information for Missouri Logos, a Partnership, a 66-2/3% owned subsidiary of the Company and the only subsidiary of the Company that is not a Guarantor, is set forth below:

(16) Disclosures About Fair Value of Financial Instruments

The following table presents the carrying amounts and estimated fair values of the Company's financial instruments at December 31, 1998 and 1997. The fair value of the financial instrument is defined as the amount at which the instrument could be exchanged in a current transaction between willing parties.

	December 31, 1998		December 31, 1997	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Marketable investment securities	\$ -0-	-0-	\$ 679	\$ 679
Long-term debt	\$ 827,453	874,091	534,091	575,198

The estimated fair value amounts have been determined by the Company using available market information and appropriate valuation methodologies as follows:

- o The carrying amounts of cash and cash equivalents, receivables, trade accounts payable, accrued expenses, and deferred income approximate fair value because of the short term nature of these items.
- o The fair value of the Company's marketable investment securities are based on quoted market prices.
- o The fair value of long-term debt is based upon market quotes obtained from dealers where available and by discounting future cash flows at rates currently available to the Company for similar instruments when quoted market rates are not available.

Fair value estimates are subject to inherent limitations. Estimates of fair values are made at a specific point in time, based on relevant market information and information about the financial instrument. The estimated fair values of financial instruments presented above are not necessarily indicative of amounts the Company might realize in actual market transactions. Estimates of fair value are subjective in nature and involve uncertainties and matters of significant judgement and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

(18) New Accounting Pronouncements

In April 1998, the American Institute of Certified Public Accountants issued Statement of Position ("SOP") 98-5, Reporting on the Costs of Start-Up Activities. SOP 98-5 is effective for financial statements for fiscal years beginning after December 15, 1998, and requires that the costs of start-up activities, including organizational costs, be expensed as incurred. At December 31, 1998, the Company estimates that \$1,169, of such capitalized costs are included in intangible assets on the Company's balance sheet.

The effect of SOP 98-5 will be recorded in the first quarter of fiscal 1999 as the cumulative effect of a change in accounting principle, as described in Accounting Principles Board Opinion No. 20 "Accounting Changes".

(19) Subsequent Events

Subsequent to December 31, 1998, the Company purchased substantially all of the assets of four outdoor advertising companies for a total purchase price of approximately \$63,000 in cash. The acquisitions will be accounted for under the purchase method of accounting.

PART III

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

The first part of the response to this item is incorporated by reference from the discussion responsive thereto under the caption "Certain Relationships and Related Transactions" in the Company's Proxy Statement relating to the 1999 Annual Meeting of Stockholders.

In October 1996, certain directors and officers of the Company and members of their immediate families have invested approximately \$1,200,000 in Sign Acquisition Corporation, a privately-held holding company which owns all of the outstanding capital stock of Interstate Highway Sign Corp. Interstate manufactures the signs on which many of the Company's logo sign plates are affixed. Prior to the investment, the Board of Directors determined that it was not an investment of interest to the Company because the business of SAC was not consistent with the Company's overall business strategy and because SAC did not provide margins of the level historically produced by the Company. The Company had in the past purchased logo signs from Interstate as one of its suppliers and has continued to do so. The Company made approximately \$3,462,000 in payments to Interstate during 1997 and approximately \$1,810,000 in payments during 1998, and expects to make payments in comparable amounts in 1999. The payments made by the Company in 1997 represented approximately 15.7% of Interstate's consolidated gross revenues for its fiscal year ended February 28, 1998, and the payments made by the Company in 1998 represented approximately 8.2% of Interstate's consolidated gross revenues for its fiscal year ended February 28, 1999. Kevin P. Reilly, Jr., Sean E. Reilly, Charles W. Lamar, III, Gerald H. Marchand and Jack S. Rome, Jr. and members of their immediate families hold equity interests in SAC. These interests are comprised of shares of common stock beneficially owned by them and held in a voting trust for which Kevin P. Reilly, Jr. serves as the trustee, and warrants to purchase additional shares of common stock of SAC. The shares beneficially owned by these persons and members of their immediate families represent the following interests in the outstanding capital stock of SAC: Kevin P. Reilly, Jr. and Sean E. Reilly are each considered to own 26.7%; Mr. Lamar, 11.7%; Mr. Marchand, 4.4%; and Mr. Rome, 1.8%. Assuming that each of these persons and their immediate family members exercised in full the warrants to purchase common stock held by them, these persons would beneficially own approximately 35.1%, 15.3%, 5.9% and 2.2%, respectively, of the outstanding capital stock of SAC. Kevin P. Reilly, Sr., the father of Kevin P. Reilly, Jr. and Sean E. Reilly, is the Chairman of the Board of Directors of SAC. Kevin P. Reilly, Jr. and Jennifer Reilly, the wife of Sean E. Reilly, are members of the Board of Directors of SAC.

On December 22, 1998, the Company filed a report on Form 8-K in order to furnish certain exhibits for incorporation by reference into the Registration Statement on Form S-3 of Lamar Advertising Company previously filed with Securities and Exchange Commission (File No. 333-50559), which Registration Statement was declared effective by the Commission on April 28, 1998, Lamar Advertising Company is filing an Underwriting Agreement dated December 18, 1998 between Lamar and Morgan Stanley & Co. Incorporated as Exhibit 1.2 to such Registration Statement and an opinion of Palmer & Dodge LLP, counsel to the Company, regarding the validity of certain shares of the Company's Class A Common Stock, sold by the Company pursuant to such Underwriting Agreement as Exhibit 5.3 to such Registration Statement.

On December 23, 1998, the Company filed a report on Form 8-K to announce that it sold 6.9 million shares of its Class A Common Stock at a price to the public of \$32.50 through Morgan Stanley & Co., Inc. acting as the sole underwriter in this transaction.
