On July 20, 1999, Lamar Advertising Company completed a corporate reorganization to create a new holding company structure. The reorganization was accomplished through a merger under section 251(g) of the Delaware General Corporation Law. At the effective time of the merger, all stockholders of Lamar Advertising Company became stockholders in a new holding company and Lamar Advertising Company became a wholly-owned subsidiary of the new holding company. The new holding company took the Lamar Advertising Company name and the old Lamar Advertising Company was renamed Lamar Media Corp. In the merger, all outstanding shares of old Lamar Advertising Company's capital stock were converted into shares of the new holding company with the same voting powers, designations, preferences and rights, and the same qualifications, restrictions and limitations, as the shares of old Lamar Advertising Company. Following the restructuring, the Class A common stock of the new holding company trades under the symbol "LAMR" on the Nasdaq National Market with the same CUSIP number as the old Lamar Advertising Company's Class A common stock.

In this annual report, "Lamar," the "Company," "we," "us" and "our" refer to Lamar Advertising Company and its consolidated subsidiaries with respect to periods following the reorganization and to old Lamar Advertising Company with respect to periods prior to the reorganization, except where we make it clear that we are only referring to Lamar Media Corp. or a particular subsidiary.

In addition, "Lamar Media" and "Media" refer to Lamar Media Corp. and its consolidated subsidiaries with respect to periods following the reorganization and to old Lamar Advertising Company with respect to periods prior to the reorganization, except where we make it clear that we are only referring to Lamar Media Corp. or a particular subsidiary.

PART I

ITEM 1. BUSINESS

GENERAL

Lamar is one of the largest and most experienced owners and operators of outdoor advertising structures in the United States. The Company conducts a business that has operated under the Lamar name since 1902. As of December 31, 1999, the Company operated approximately 116,800 outdoor advertising displays in 42 states. The Company also operates the largest logo sign business in the United States. Logo signs are signs located near highway exits which deliver brand name information on available gas, food, lodging and camping services. As of December 31, 1999, the Company maintained over 79,500 logo sign displays in 20 states. The Company also operates transit advertising displays on bus shelters, bus benches and buses in several markets.

BUSINESS STRATEGY

OUTDOOR ADVERTISING

The Company's overall business strategy is to be the leading provider of outdoor advertising in the markets it serves. This strategy includes the following elements:

OPERATING STRATEGY:

HIGH QUALITY LOCAL SALES AND SERVICE. Local advertising constituted approximately 86% of the Company's net revenues in 1999, which management believes is higher than the industry average. The Company attempts to identify and closely monitor the needs of its customers and seeks to provide them with quality advertising products at a lower cost than competitive media.

At December 31, 1999, the Company's 526-person sales force was supported by 126 full-service offices. Each salesperson is compensated under a performance-based compensation system and supervised by a sales manager executing a coordinated marketing plan. Art departments assist local customers in the development and production of creative, effective advertisements.

CENTRALIZED CONTROL/DECENTRALIZED MANAGEMENT. Management believes that in 126 of the 139 markets in which the Company operated at December 31, 1999, the Company is the only outdoor advertising company offering a full complement of outdoor advertising services coupled with local production facilities, management and account executives. Local offices operate in defined geographic areas and function essentially as independent business units, consistent with senior management's philosophy that a decentralized organization is more responsive to particular local market demands.

The Company maintains centralized accounting and financial control over its local operations, but local managers are responsible for the day-to-day operations in each local market and are compensated according to that market's financial performance. Each local manager reports to one of nine regional managers who in turn report to the Company's Chief Executive Officer.

GROWTH STRATEGY:

INTERNAL GROWTH. Within its existing markets, the Company enhances revenue and cash flow growth by employing highly targeted local marketing efforts to improve display occupancy rates and by increasing advertising rates. This strategy is facilitated through its local sales and service offices, which allow management to respond quickly to the demands of its local customer base. In addition, the Company routinely invests in upgrading its existing structures and constructing new display faces in order to provide quality service to its current customers and to attract new advertisers.

ACQUISITIONS. Aggressive internal growth is enhanced by focused strategic acquisitions, resulting in increased operating efficiencies, greater geographic diversification and increased market penetration. The Company has completed over 220 acquisitions of outdoor advertising businesses since 1983. In addition to acquiring positions in new markets, the Company purchases smaller outdoor advertising properties within existing or contiguous markets. Acquisitions offer opportunities for inter-market cross-selling and the opportunity to centralize and combine accounting and administrative functions, thereby achieving economies of scale. In addition, the Company leverages its reputation for high quality local sales and service by taking advantage of opportunities to acquire high-profile bulletin displays that may become available in larger markets. Although the acquisition market is becoming more competitive, the Company believes that there will be future opportunities for implementing the Company's acquisition strategy given the industry's fragmentation and current consolidation trends.

During 1999, the Company increased the number of outdoor advertising displays it operates by approximately 62% by acquiring outdoor advertising assets, including the completion of 77 strategic acquisitions of outdoor advertising businesses as well as isolated purchases of outdoor advertising displays. Certain of the Company's principal acquisitions since January 1, 1999 are described below:

American Displays, Inc.

On January 5, 1999, the Company purchased all of the outdoor advertising assets of American Displays, Inc. for a cash purchase price of approximately \$14.5 million. The acquisition consisted of displays in Grand Rapids, Michigan.

KJS, LLC.

On February 1, 1999, the Company purchased all of the outdoor advertising assets of KJS, LLC for a cash purchase price of \$40.5 million. The approximately 1,400 displays were located in Lincoln and Omaha, Nebraska.

Frank Hardie, Inc.

On April 1, 1999, the Company purchased all of the assets of Frank Hardie, Inc. for a cash purchase price of approximately \$20.3 million. The acquisition included approximately 900 displays in Dubuque and Waterloo, Iowa.

Vivid, Inc.

On June 1, 1999, the Company purchased the assets of Vivid, Inc. for a cash purchase price of approximately \$22.1 million. The approximately 1,000 displays are located in Quad Cities, Illinois; Rockford, Illinois; and Rapid City, South Dakota.

Chancellor Media Outdoor Corporation

On September 15, 1999, Lamar Media Corp. purchased the capital stock of Chancellor Media Outdoor Corporation and Chancellor Media Whiteco Outdoor Corporation, ("Chancellor Outdoor") for a combination of approximately \$700 million in cash and 26,227,273 shares of the Company's Class A common stock valued at approximately \$947 million. The acquisition included approximately 36,000 outdoor advertising displays which gave the Company a presence in 8 additional states and established 31 new markets.

LOGO SIGNS

The Company entered the business of logo sign advertising in 1988. The Company is now the largest provider of logo sign services in the United States, operating 20 of the 25 privatized state logo sign contracts. The Company also operates the tourism signing contracts in six states and the province of Ontario, Canada.

The Company plans to pursue additional logo sign contracts, through both new contract awards and, possibly, the acquisition of other logo sign operators. Logo sign opportunities arise periodically, both from states initiating new logo sign programs and states converting from government owned and operated programs to privately owned and operated programs. Furthermore, the Company plans to pursue additional tourism signing programs in Canada and is seeking to expand into other state-authorized signage programs, such as those involving directional signs providing tourist information.

TRANSIT AND OTHER

The Company has recently expanded into the transit advertising business through the operation of displays on bus shelters, benches and buses in 22 of its outdoor advertising markets, three markets in South Carolina, two markets in Utah, one market in California, one market in Florida and one in Colorado. The Company plans to continue pursuing transit advertising opportunities that arise in its primary markets and to expand into other markets.

COMPANY OPERATIONS

OUTDOOR ADVERTISING

INVENTORY:

The Company operates the following types of outdoor advertising displays:

BULLETINS generally are 14 feet high and 48 feet wide (672 square feet) and consist of panels on which advertising copy is displayed. The advertising copy is either hand painted onto the panels at the Company's facilities in accordance with design specifications supplied by the advertiser and attached to the outdoor advertising structure, or printed with computer-generated graphics on a single sheet of vinyl that is wrapped around the structure. On occasion, to attract more attention, some of the panels may extend beyond the linear edges of the display face and may include three-dimensional embellishments. Because of their greater impact and higher cost, bulletins are usually located on major highways.

STANDARDIZED POSTERS generally are 12 feet high by 25 feet wide (300 square feet) and are the most common type of billboard. Advertising copy for these posters consists of lithographed or silk-screened paper sheets supplied by the advertiser that are pasted and applied like wallpaper to the face of the display, or single sheets of vinyl with computer-generated advertising copy that are wrapped around the structure. Standardized posters are concentrated on major traffic arteries.

JUNIOR POSTERS usually are 6 feet high by 12 feet wide (72 square feet). Displays are prepared and mounted in the same manner as standardized posters, except that vinyl sheets are not typically used on junior posters. Most junior posters, because of their smaller size, are concentrated on city streets and target pedestrian traffic.

For the year ended December 31, 1999, approximately 65% of the Company's outdoor advertising net revenues were derived from bulletin sales and 35% from poster sales. The Company regularly donates unoccupied display space for use by charitable and civic organizations.

The physical structures are owned by the Company and are built on locations the Company either owns or leases. In each local office one employee typically performs site leasing activities for the markets served by that office. See Item 2. -- "Properties."

Bulletin space is generally sold as individually selected displays for the duration of the advertising contract. Bulletins may also be sold as part of a rotary plan where advertising copy is periodically rotated from one location to another within a particular market. Poster space is generally sold in packages called "showings," which comprise a given number of displays in a market area. Posters provide advertisers with access either to a specified percentage of the general population or to a specific targeted audience. Displays making up a showing are placed in well-traveled areas and are distributed so as to reach a wide audience in a particular market. Bulletin space is generally sold for 12 month periods. Poster space averages between 30 and 90 days.

PRODUCTION:

The Company's local production staffs in 126 of its markets perform the full range of activities required to create and install outdoor advertising. Production work includes creating the advertising copy design and layout, painting the design or coordinating its printing and installing the designs on displays. The Company provides its production services to local advertisers and to advertisers that are not represented by advertising agencies, since national advertisers represented by advertising agencies often use preprinted designs that require only installation.

The Company's creative and production personnel typically develop new designs or adopt copy from other media for use on billboards. The Company's artists also often assist in the development of marketing presentations, demonstrations and strategies to attract new advertisers.

With the increased use of vinyl and pre-printed advertising copy furnished to the outdoor advertising company by the advertiser or its agency, outdoor advertising companies require less labor-intensive production work. In addition, increased use of vinyl and preprinted copy is also attracting more customers to the outdoor advertising medium. The Company believes that this trend over time will reduce operating expenses associated with production activities.

CATEGORIES OF BUSINESS:

The following table sets forth the top ten categories of business from which the Company derived its outdoor advertising revenues for 1999 and the respective percentages of such revenue. These business categories accounted for approximately 72% of the Company's total outdoor advertising net revenues in the year ended December 31, 1999. No one advertiser accounted for more than 3.0% of the Company's total outdoor advertising net revenues in that period.

LOGO SIGNS

The Company is the largest provider of logo sign services in the United States and operates over 24,800 logo sign structures containing over 79,500 logo advertising displays. The Company has been awarded contracts to erect and operate logo signs in the states of Colorado, Delaware, Florida, Georgia, Michigan, Minnesota, Mississippi, Nebraska, New Jersey, New Mexico, Ohio, Oklahoma, South Carolina, Texas, Utah and Virginia, the province of Ontario, Canada, and through a 66.7% owned partnership in the state of Missouri. In addition, the Company has acquired the logo sign contracts in Kansas, Kentucky, and Nevada. The Company also operates the tourism signing contracts for the states of Colorado, Kentucky, Michigan, Nebraska, New Jersey and Ohio as well as for the province of Ontario, Canada.

State logo sign contracts represent the contract right to erect and operate logo signs within a state. The term of the contracts vary, but generally range from ten to twenty years, including renewal terms. The logo sign contracts generally provide for termination by the state prior to the end of the term of the contract, in most cases with compensation to be paid to the Company. Typically, at the end of the term of the contract, ownership of the structures is transferred to the state without compensation to the Company. Of the Company's logo sign contracts, one is due to terminate in December, 2000, and three are subject to renewal over the next year, one in April, 2000, one in June, 2000 and another in October, 2000.

The Company also designs and produces logo sign plates for customers throughout the country, including for use in states which have not yet privatized their logo sign programs.

EMPLOYEES

The Company employed approximately 2,600 persons at December 31, 1999. Of these, 110 were engaged in overall management and general administration at the Company's management headquarters and the remainder were employed in the Company's operating offices. Of these, approximately 526 were direct sales and marketing personnel.

The Company has 11 local offices covered by collective bargaining agreements, consisting of painters, billposters and construction personnel. The Company believes that its relations with its employees, including its 121 unionized employees, are good, and the Company has never experienced a strike or other labor dispute.

COMPETITION

OUTDOOR ADVERTISING

The Company competes in each of its markets with other outdoor advertisers as well as other media, including broadcast and cable television, radio, print media and direct mail marketers. In addition, the Company also competes with a wide variety of out-of-home media, including advertising in shopping centers, malls, airports, stadiums, movie theaters and supermarkets, as well as on taxis, trains and buses. Advertisers compare relative costs of available media and cost-per-thousand impressions, particularly when delivering a message to customers with distinct demographic characteristics. In competing with other media, outdoor advertising relies on its relative cost efficiency and its ability to reach a broad segment of the population in a specific market or to target a particular geographic area or population with a particular set of demographic characteristics within that market.

The outdoor advertising industry is fragmented, consisting of several large outdoor advertising and media companies with operations in multiple markets as well as smaller and local companies operating a limited number of structures in single or a few local markets. Although some consolidation has occurred over the past few years, according to the Outdoor Advertising Association of America ("OAAA") there are approximately 600 companies in the outdoor advertising industry operating approximately 465,000 billboard displays. In several of its markets, the Company encounters direct competition from other major outdoor media companies, including Infinity Broadcasting Corp. (formerly Outdoor Systems, Inc.) and Clear Channel Communications, Inc. (formerly Eller Media) both of which may have greater total resources than the Company. The Company believes that its strong emphasis on sales and customer service and its position as a major provider of advertising services in each of its primary markets enables it to compete effectively with the other outdoor advertising companies, as well as other media, within those markets.

LOGO SIGNS

The Company faces competition in obtaining new logo sign contracts and in bidding for renewals of expiring contracts. The Company faces competition from two other national providers of logo signs in seeking state-awarded logo service contracts. In addition, local companies within each of the states that solicit bids will compete against the Company in the open-bid process. Competition from these sources is also encountered at the end of each contract period.

In marketing logo signs to advertisers, the Company competes with the other forms of out-of-home advertising described above.

REGULATION

Outdoor advertising is subject to governmental regulation at the federal, state and local levels. Federal law, principally the Highway Beautification Act of 1965 (the "HBA") regulates outdoor advertising on federally aided primary and interstate highways. The HBA requires, as a condition to federal highway assistance, states to restrict billboards on such highways to commercial and industrial areas, and requires certain additional size, spacing and other limitations. All states have passed state billboard control statutes and regulations at least as restrictive as the federal requirements, including removal at the owner's expense and without compensation of any illegal signs on such highways. The Company believes that the number of its billboards that may be subject to removal as illegal is immaterial. No state in which the Company operates has banned billboards, but some have adopted standards more restrictive than the federal requirements. Municipal and county governments generally also have sign controls as part of their zoning laws. Some local governments prohibit construction of new billboards and some allow new construction only to replace existing structures, although most allow construction of billboards subject to restrictions on zones, size, spacing and height.

Federal law does not require removal of existing lawful billboards, but does require payment of compensation if a state or political subdivision compels the removal of a lawful billboard along a federally aided primary or interstate highway. State governments have purchased and removed legal billboards for beautification in the past, using federal funding for transportation enhancement programs, and may do so in the future. Governmental authorities from time to time use the power of eminent domain to remove billboards. Thus far, the Company has been able to obtain satisfactory compensation for any of its billboards purchased or removed as a result of governmental action, although there is no assurance that this will continue to be the case in the future. Local governments do not generally purchase billboards for beautification, but some have attempted to force removal of legal but nonconforming billboards (billboards which conformed with applicable zoning regulations when built but which do not conform to current zoning regulations) after a period of years under a concept called "amortization," by which the governmental body asserts that just compensation is earned by continued operation over time. Although there is some question as to the legality of amortization under federal and many state laws, amortization has been upheld in some instances. The Company generally has been successful in negotiating settlements with municipalities for billboards required to be removed. Restrictive regulations also limit the Company's ability to rebuild or replace nonconforming billboards. The outdoor advertising industry is heavily regulated and at various times and in various markets can be expected to be subject to varying degrees of regulatory pressure affecting the operation of advertising displays. Accordingly, although the Company's experience to date is that the regulatory environment can be managed, no assurance can be given that existing or future laws or regulations will not materially and adversely affect the Company.

A new national tobacco settlement eliminated outdoor advertising of tobacco products in the U.S. in November, 1998. As of April 1, 1999, the Company removed all of its outdoor advertising of tobacco products. Our tobacco revenues as a percentage of consolidated net revenues were 7% for the year ended December 31, 1998 and 3% for the year ended December 31, 1999. The Company expects to have no tobacco revenues in fiscal 2000.

ITEM 2. PROPERTIES

The Company's 53,500 square foot management headquarters is located in suburban Baton Rouge, Louisiana. The Company occupies approximately 67% of the space in this facility and leases the remaining space. The Company owns 66 local operating facilities with front office administration and sales office space connected to back-shop poster and bulletin production space. In addition, the Company leases an additional 106 operating facilities at an aggregate lease expense for 1999 of approximately \$2,125,000.

The Company owns approximately 2,128 parcels of property beneath outdoor structures. As of December 31, 1999, the Company had approximately 62,755 active outdoor site leases accounting for a total annual lease expense of \$61.1 million. This amount represented 14% of total outdoor advertising net revenues for that period, which is consistent with the Company's historical lease expense experience. The Company's leases are for varying terms ranging from month-to-month to in some cases a term of over ten years, and many provide the Company with renewal options. There is no significant concentration of displays under any one lease or subject to negotiation with any one landlord. The Company believes that an important part of its management activity is to manage its lease portfolio and negotiate suitable lease renewals and extensions.

ITEM 3. LEGAL PROCEEDINGS

The Company from time to time is involved in litigation in the ordinary course of business, including disputes involving advertising contracts, site leases, employment claims and construction matters. The Company is also involved in routine administrative and judicial proceedings regarding billboard permits, fees and compensation for condemnations. The Company is not a party to any lawsuit or proceeding which, in the opinion of management, is likely to have a material adverse effect on the Company.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of security holders during the fourth quarter of the fiscal year covered by this report.

PART II

Prior to August 2, 1996, the day on which the Class A common stock was first publicly traded, there was no public market for the Class A common stock. On December 31, 1997, the Company declared a 3-for-2 stock split of shares of Class A common stock, which was paid in the form of a 50% stock dividend on February 27, 1998. All share and per share amounts included herein have been restated to reflect this split. As of March 14, 2000, the Class A common stock was held by 202 shareholders of record. The Company believes, however, that the actual number of beneficial holders of the Class A common stock may be substantially greater than the stated number of holders of record because a substantial portion of the Class A common stock is held in "street name."

The following table sets forth, for the periods indicated, the high and low bid prices for the Class A common stock as reported on the Nasdaq National Market.

The year end change was made to conform to the predominant fiscal year end for companies within the outdoor advertising industry. The results of operations for the two-month transition period ended December 31, 1996 are presented in the audited consolidated financial statements as filed previously on Form 10-K. The data presented below should be read in conjunction with the audited consolidated financial statements, related notes and Management's Discussion and Analysis of Financial Condition and Results of Operations included herein.

(2) "EBITDA" is defined as operating income before depreciation and amortization. It represents a measure which management believes is customarily used to evaluate the financial performance of companies in the media industry. ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

LAMAR ADVERTISING COMPANY

The following is a discussion of the consolidated financial condition and results of operations of the Company for the years ended December 31, 1999, 1998 and 1997. This discussion should be read in conjunction with the consolidated financial statements of the Company and the related notes.

OVERVIEW

The Company's net revenues, which represent gross revenues less commissions paid to advertising agencies that contract for the use of advertising displays on behalf of advertisers, are derived primarily from the sale of advertising on outdoor advertising displays owned and operated by the Company. In recent years, the Company's logo sign business has expanded rapidly and may in the future have an increasing impact on the Company's revenues and operating income.

The Company has grown significantly during the last three years, primarily as the result of (i) internal growth in its existing outdoor advertising business resulting from construction of additional outdoor advertising displays, operating efficiency and increases in advertising rates, (ii) acquisitions of outdoor advertising businesses and structures, and (iii) the rapid expansion of the Company's logo sign business. The Company's net advertising revenues increased by \$243.0 million from \$201.1 million for the fiscal year ended December 31, 1997 to \$444.1 million for the fiscal year ended December 31, 1999, representing a compound annual growth rate of approximately 49%. During the same period, EBITDA increased \$114.4 million from \$92.3 million for the fiscal year ended December 31, 1997 to \$206.7 million for the fiscal year ended December 31, 1999, representing a compound annual growth rate of approximately 50%.

The Company plans to continue a strategy of expanding through both internal growth and acquisitions. As a result of acquisitions, the operating performance of individual markets and of the Company as a whole are not necessarily comparable on a year-to-year basis. All recent acquisitions have been accounted for using the purchase method of accounting and, consequently, operating results from acquired operations are included from the respective dates of those acquisitions.

Since December 31, 1998, the Company has increased the number of outdoor advertising displays it operates by approximately 62% by completing 77 strategic acquisitions of outdoor advertising and transit assets for an aggregate cash purchase price of approximately \$889 million and the issuance of 26,407,650 shares of Class A common stock valued at approximately \$955 million. The Company has financed its recent acquisitions and intends to finance its acquisition activity from available cash and borrowings under the New Bank Credit Agreement (as defined below) which the Company entered into in August, 1999. See "Liquidity and Capital Resources" below.

The Company relies on sales of advertising space for its revenues, and its operating results are therefore affected by general economic conditions, as well as trends in the advertising industry.

A national tobacco settlement eliminated outdoor advertising of tobacco products in the U.S. in November, 1998. As of April 1, 1999, the Company has eliminated all of its outdoor advertising of tobacco products. As a result the Company's tobacco revenues, as a percentage of billboard advertising net revenues, declined from 17% in fiscal 1991 to 3% in fiscal 1999.

The Company expects to have no tobacco revenues in fiscal 2000, but the Company has been successful in replacing the tobacco advertising removed with substitute advertising at comparable rates.

Growth of the Company's business requires capital expenditures for maintenance and capitalized costs associated with new billboard displays and new logo sign contracts. The Company expended \$36.7 million in fiscal 1997, \$55.2 million in fiscal 1998 and \$77.2 million in fiscal 1999. Of these amounts, \$10.4 million, \$10.6 million and \$11.3 million, respectively, were attributable to the logo sign business. See "Liquidity and Capital Resources."

The following table presents certain items in the Consolidated Statements of Operations as a percentage of net revenues for the years ended December 31, 1999, 1998 and 1997:

	Year Ended December 31,		
	1999	1998	1997

(1) "EBITDA" is defined as operating income before depreciation and amortization. It represents a measure which management believes is customarily used to evaluate the financial performance of companies in the media industry. However, EBITDA is not a measure of financial performance under generally accepted accounting principles and should not be considered an alternative to operating income or net earnings as an indicator of the Company's operating performance or to net cash provided by operating activities as a measure of its liquidity.

YEAR ENDED DECEMBER 31, 1999 COMPARED TO YEAR ENDED DECEMBER 31, 1998

Total revenues increased \$155.5 million or 53.9% to \$444.1 million for the year ended December 31, 1999 from \$288.6 million for the same period in 1998. This increase was predominantly attributable to (i) an increase in billboard net revenues of \$150.5 million or 57.5%, which was attributable to the Company's acquisitions during 1999 and 1998 and internal growth within the Company's previously existing markets, and (ii) a \$4.0 million increase in logo sign revenue, which represents a 16.6% increase over the prior year. The increase in logo sign revenue was due to the completion of development of the new logo sign contracts awarded in 1999 and 1998 and the continued expansion of the Company's existing logo sign contracts.

Operating expenses, exclusive of depreciation and amortization, increased \$83.7 million or 54.4% to \$237.5 million for the year ended December 31, 1999 from \$153.8 million for the same period in 1998. This increase was the result of (i) an increase in personnel costs, sign site rent and other costs related to the increase in revenue and (ii) additional operating expenses related to the Company's recent acquisitions and the continued development of the logo sign business.

Depreciation and amortization expense increased \$88.3 million or 99.4% from \$88.8 million for the year ended December 31, 1998 to \$177.1 million for the year ended December 31, 1999 as a result of an increase in capital assets resulting from the Company's recent acquisition activity.

Due to the above factors, operating income decreased \$16.5 million or 35.8% from \$46.0 million for the year ended December 31, 1998 to \$29.5 million for the year ended December 31, 1999.

Interest income increased \$.7 million as a result of an increase in excess cash investments made during the period. Interest expense increased \$29.6 million from \$60.0 million for the year ended December 31, 1998 to \$89.6 million for the year ended December 31, 1999 as a result of interest expense on the Company's 5 1/4% Convertible Notes due 2006 and greater amounts outstanding under the New Bank Credit Agreement to finance recent acquisitions.

The decrease in operating income and the increase in interest expense described above resulted in a \$41.1 million decrease in earnings before income taxes, extraordinary item and cumulative effect of a change in accounting principle.

The decrease in earnings before income taxes, resulted in an increase in the income tax benefit of \$9.4 million for the year ended December 31, 1999 over the same period in 1998.

An extraordinary loss on debt extinguishment of \$.2 million net of income tax benefit of \$.1 million, was incurred during the year ended December 31, 1999, as a result of the extinguishment of a portion of the Company's 9 1/4% Senior Subordinated Notes due 2007 in connection with a change of control tender offer in July, 1999.

Due to the adoption of SOP 98-5 "Reporting on the Costs of Start-Up Activities" which requires costs of start-up activities and organization costs to be expensed as incurred, the Company recognized an expense of \$.8 million as a cumulative effect of a change in accounting principle. This expense is a one time adjustment to recognize start-up activities and organization costs that were capitalized in prior periods.

As a result of the foregoing factors, the Company recognized a net loss for the year ended December 31, 1999 of \$44.5 million, as compared to a net loss of \$11.9 million for the same period in 1998.

YEAR ENDED DECEMBER 31, 1998 COMPARED TO YEAR ENDED DECEMBER 31, 1997

Total revenues increased \$87.5 million or 43.5% to \$288.6 million for the year ended December 31, 1998 from \$201.1 million for the same period in 1997. This increase was predominantly attributable to (i) an increase in billboard net revenues of \$84.5 million or 47.6%, which was attributable to the Company's acquisitions during 1997 and 1998 and internal growth within the Company's previously existing markets, and (ii) a \$3.5 million increase in logo sign revenue, which represents a 16.8% increase over the prior year. The increase in logo sign revenue was due to the completion of development of the new logo sign contracts awarded in 1997 and 1998 and the continued expansion of the Company's existing logo sign contracts.

Operating expenses, exclusive of depreciation and amortization, increased \$45.0 million or 41.4% to \$153.8 million for the year ended December 31, 1998 from \$108.8 million for the same period in 1997. This increase was the result of (i) an increase in personnel costs, sign site rent and other costs related to the increase in revenue and (ii) additional operating expenses related to the Company's recent acquisitions and the continued development of the logo sign business.

Depreciation and amortization expense increased \$40.5 million or 83.9% from \$48.3 million for the year ended December 31, 1997 to \$88.8 million for the year ended December 31, 1998 as a result of an increase in capital assets resulting from the Company's recent acquisition activity.

Due to the above factors, operating income increased \$2.0 million or 4.5% from \$44.0 million for the year ended December 31, 1997 to \$46.0 million for the twelve months ended December 31, 1998.

Interest income decreased \$1.0 million as a result of a decrease in excess cash investments made during the period. Interest expense increased \$21.8 million from \$38.2 million for the year ended December 31, 1997 to \$60.0 million for the year ended December 31, 1998 as a result of interest expense on the Company's 8 5/8% Senior Subordinated Notes due 2007 (the "1997 Notes") and greater amounts outstanding under the Senior Credit Facility (as defined below) and the New Bank Credit Agreement to finance recent acquisitions.

The increase in operating income was offset by the increase in interest expense described above resulting in a \$19.6 million decrease in earnings before income taxes.

Due to the decrease in earnings before income taxes, income tax expense for the twelve months ended December 31, 1998 decreased \$4.8 million over the same period in 1997.

As a result of the foregoing factors, the Company recognized a net loss for the year ended December 31, 1998 of \$11.9 million, as compared to net earnings of \$2.8 million for the same period in 1997.

LIQUIDITY AND CAPITAL RESOURCES

The Company has historically satisfied its working capital requirements with cash from operations, offerings of its Class A common stock and debt securities and borrowings under its bank credit facilities. The Company's acquisitions have been financed primarily with funds borrowed under its bank credit facilities and issuance of its Class A common stock.

The Company's net cash provided by operating activities increased to \$110.6 million in fiscal 1999 due primarily to an increase in noncash items of \$79.9 million, which includes an increase in depreciation and amortization of \$88.3 million offset by a

decrease in deferred tax expense of \$6.0 million and an increase in gain on disposition of assets of \$4.3 million. There was also a decrease in net earnings of \$32.6 million, an increase in receivables of \$16.6 million, an increase in other assets of \$2.2 million, an increase in trade accounts payable of \$3.2 million, an increase in accrued expenses of \$14.3 million, and a decrease in deferred income of \$9.3 million. Net cash used in investing activities increased \$415.5 million from \$535.2 million in fiscal 1998 to \$950.7 million in fiscal 1999. This increase was due to a \$395.6 million increase in purchase of outdoor advertising assets and a \$22.0 million increase in capital expenditures offset by an increase in proceeds from the sale of property and equipment of \$2.1 million. Net cash provided by financing activities increased \$135.8 million in fiscal 1999 due to a \$279.5 million increase in proceeds from issuance of long-term debt due to the net proceeds from the August, 1999 offering of 5 1/4% Convertible Notes due 2006 of \$279.6 million, and a \$335.0 million increase in principal borrowings under credit agreements, offset by a \$395.2 million decrease in proceeds from issuance of common stock.

During the year ended December 31, 1999, the Company financed its acquisition activity of approximately \$1.9 billion with remaining proceeds from the December, 1998 equity offering, borrowings under the Company's bank credit facility and the issuance of approximately 26.4 million shares of common stock. At December 31, 1999, following these acquisitions, the Company had \$223 million available under the revolving bank credit facility.

On August 13, 1999, the Company replaced the 1998 bank credit facility with a new bank credit facility under which The Chase Manhattan Bank serves as administrative agent. The new \$1 billion bank credit facility consists of (1) a \$350 million revolving bank credit facility and (2) a \$650 million term facility with two tranches, a \$450 million Term A facility and a \$200 million Term B facility. As a result of the holding company reorganization completed on July 20, 1999, the existing bank credit facility and the new bank credit facility are obligations of Lamar Media Corp., a wholly owned subsidiary, of Lamar Advertising Company. As of December 31, 1999, Lamar Media had borrowings under this agreement of \$776 million.

On August 10, 1999, the Company completed an offering of \$287.5 million 5 1/4% Convertible Notes due 2006. The net proceeds of approximately \$279.6 million of the convertible notes were used to pay down existing bank debt. The convertible notes are convertible into Lamar Advertising Company Class A common stock at an initial conversion price of \$46.25 per share.

In connection with the reorganization of Lamar Advertising Company into a new holding company structure, Lamar Media Corp. (formerly known as Lamar Advertising Company) made a change of control tender offer to the holders of its 9 1/4% Senior Subordinated Notes due 2007 in aggregate principal amount of approximately \$103.9 million. Pursuant to the change of control tender offer and in accordance with the Indenture, Lamar Media Corp. offered to repurchase the Notes for 101% of the principal amount plus accrued interest. A total of \$29.9 million aggregate principal amount of Notes were tendered for payment on August 19, 1999, and the related 1% prepayment penalty is reflected as an extraordinary item in the Company's income statement, net of tax.

LAMAR MEDIA CORP.

On July 20, 1999, Lamar Advertising Company completed a corporate reorganization to create a new holding company structure. The reorganization was accomplished through a merger under section 251(g) of the Delaware General Corporation Law. At the effective time of the merger, all stockholders of Lamar Advertising Company became stockholders in a new holding company and Lamar Advertising Company became a wholly-owned subsidiary of the new holding company. The new holding company took the Lamar Advertising Company

name and the old Lamar Advertising Company was renamed Lamar Media Corp. In the merger, all outstanding shares of old Lamar Advertising Company's capital stock were converted into shares of the new holding company with the same voting powers, designations, preferences and rights, and the same qualifications, restrictions and limitations, as the shares of old Lamar Advertising Company.

The following is a discussion of the consolidated financial condition and results of operations of Lamar Media for the years ended December 31, 1999 and 1998. This discussion should be read in conjunction with the consolidated financial statements of Lamar Media and the related notes.

YEAR ENDED DECEMBER 31, 1999 COMPARED TO YEAR ENDED DECEMBER 31, 1998

Total revenues increased \$155.5 million or 53.9% to \$444.1 million for the year ended December 31, 1999 from \$288.6 million for the same period in 1998. This increase was predominantly attributable to (i) an increase in billboard net revenues of \$150.5 million or 57.5%, which was attributable to Lamar Media's acquisitions during 1999 and 1998 and internal growth within Lamar Media's previously existing markets, and (ii) a \$4.0 million increase in logo sign revenue, which represents a 16.6% increase over the prior year. The increase in logo sign revenue was due to the completion of development of the new logo sign contracts awarded in 1999 and 1998 and the continued expansion of Lamar Media's existing logo sign contracts.

Operating expenses, exclusive of depreciation and amortization, increased \$83.6 million or 54.3% to \$237.4 million for the year ended December 31, 1999 from \$153.8 million for the same period in 1998. This increase was the result of (i) an increase in personnel costs, sign site rent and other costs related to the increase in revenue and (ii) additional operating expenses related to Lamar Media's recent acquisitions and the continued development of the logo sign business.

Depreciation and amortization expense increased \$87.4 million or 98.5% from \$88.8 million for the year ended December 31, 1998 to \$176.2 million for the year ended December 31, 1999 as a result of an increase in capital assets resulting from Lamar Media's recent acquisition activity.

Due to the above factors, operating income decreased \$15.5 million or 33.6% from \$46.0 million for the year ended December 31, 1998 to \$30.5 million for the year ended December 31, 1999.

Interest income increased \$.7 million as a result of an increase in excess cash investments made during the period. Interest expense increased \$29.6 million from \$60.0 million for the year ended December 31, 1998 to \$89.6 million for the year ended December 31, 1999 as a result of interest expense on Lamar Media's obligation to Lamar Advertising Company and greater amounts outstanding under the New Bank Credit Agreement to finance recent acquisitions.

The decrease in operating income and the increase in interest expense described above resulted in a \$40.1 million decrease in earnings before income taxes, extraordinary item and cumulative effect of a change in accounting principle.

The decrease in earnings before income taxes, resulted in an increase in the income tax benefit of \$9.0 million for the year ended December 31, 1999 over the same period in 1998.

An extraordinary loss on debt extinguishment of \$.2 million net of income tax benefit of \$.1 million, was incurred during the year ended December 31, 1999, as a result of the extinguishment of a portion of Lamar Media's 9 1/4% Senior Subordinated Notes due 2007 in connection with a change of control tender offer in July, 1999.

Due to the adoption of SOP 98-5 "Reporting on the Costs of Start-Up Activities" which requires costs of start-up activities and organization costs to be expensed as incurred, Lamar Media recognized an expense of \$.8 million as a cumulative effect of a change in accounting principle. This expense is a one time adjustment to recognize start-up activities and organization costs that were capitalized in prior periods.

As a result of the foregoing factors, Lamar Media recognized a net loss for the year ended December 31, 1999 of \$43.9 million, as compared to a net loss of \$11.9 million for the same period in 1998.

FACTORS AFFECTING FUTURE OPERATING RESULTS

THE SIGNIFICANT FIXED PAYMENTS ON THE COMPANY'S DEBT INCREASES UNCERTAINTY AND REDUCES FLEXIBILITY IN ITS OPERATIONS.

The Company has borrowed substantial amounts of money in the past and may borrow more money in the future. At December 31, 1999, the Company had approximately \$1.6 billion of debt outstanding consisting of approximately \$776 million in bank debt, \$528 million in various series of senior subordinated notes, \$287.5 million in convertible notes and \$24 million in various other short-term and long-term debt.

A large part of the Company's cash flow from operations must be used to make principal and interest payments on its debt. If the Company's operations make less money in the future, it may need to borrow to make these payments. In addition, the Company finances most of its acquisitions through borrowings under Lamar Media's bank credit facility which has a total committed amount of \$1.0 billion in term and revolving credit loans. As of December 31, 1999, the Company had approximately \$223 million available to borrow under this credit facility. Since its borrowing capacity under its credit facility is limited, the Company may not be able to continue to finance future acquisitions at its historical rate with borrowings under its credit facility. The Company may need to borrow additional amounts or seek other sources of financing to fund future acquisitions. The Company cannot guarantee that such additional financing will be available on favorable terms. The Company may need the consent of the banks under its credit facility, or the holders of other indebtedness, to borrow additional money.

RESTRICTIONS IN THE COMPANY'S, AND ITS WHOLLY-OWNED, DIRECT SUBSIDIARY LAMAR MEDIA'S DEBT AGREEMENTS REDUCE OPERATING FLEXIBILITY AND CONTAIN COVENANTS AND RESTRICTIONS THAT CREATE THE POTENTIAL FOR DEFAULTS.

The terms of the indenture relating to Lamar Advertising's outstanding notes, Lamar Media's bank credit facility and the indentures relating to Lamar Media's outstanding notes restrict, among other things, the ability of Lamar Advertising and Lamar Media to:

- o dispose of assets;
- o incur or repay debt;
- o create liens;
- o make investments; and
- o pay dividends.

Lamar Media's ability to make distributions to Lamar Advertising is also restricted under the terms of these agreements.

Under the Lamar Media's credit facility the Company must maintain specified financial ratios and levels including:

- o cash interest coverage;
- o fixed charge coverage;
- o senior debt ratios; and
- o total debt ratios.

Failure to comply with these tests may cause all amounts outstanding under the credit facility to become immediately due. If this were to occur, it would create serious financial problems for the Company. The Company's ability to comply with these restrictions, and any similar restrictions in future agreements, depends on its operating performance. Because its performance is subject to prevailing economic, financial and business conditions and other factors that are beyond the Company's control, it may be unable to comply with these restrictions in the future.

NEGATIVE TRENDS IN ADVERTISING EXPENDITURES COULD HURT THE COMPANY'S BUSINESS.

The Company sells advertising space to generate revenues. A decrease in demand for advertising space could adversely affect the Company's business. General economic conditions and trends in the advertising industry affect the amount of advertising space purchased. A reduction in money spent on its displays could result from:

- o a general decline in economic conditions;
- o a decline in economic conditions in particular markets where the Company conducts business;
- o a reallocation of advertising expenditures to other available media by significant users of the Company's displays; or
- o a decline in the amount spent on advertising in general.

THE REGULATION OF OUTDOOR ADVERTISING IMPACTS THE COMPANY'S OPERATIONS.

The Company's operations are significantly impacted by federal, state and local government regulation of the outdoor advertising business.

The federal government conditions federal highway assistance on states imposing location restrictions on the placement of billboards on primary and interstate highways. Federal laws also impose size, spacing and other limitations on billboards. Some states have adopted standards more restrictive than the federal requirements. Local governments generally control billboards as part of their zoning regulations. Some local governments have enacted ordinances which require removal of billboards by a future date. Others prohibit the construction of new billboards and the reconstruction of significantly damaged billboards, or allow new construction only to replace existing structures.

Local laws which mandate removal of billboards at a future date often do not provide for payment to the owner for the loss of structures that are required to be removed. Certain federal and state laws require payment of compensation in such circumstances. Local laws that require the removal of a billboard without compensation have been challenged in state and federal courts with conflicting results. Accordingly, the Company may not be successful in negotiating acceptable arrangements when the Company's displays have been subject to removal under these types of local laws.

Additional regulations may be imposed on outdoor advertising in the future. Legislation regulating the content of billboard advertisements has been introduced in Congress from time to time in the past. Additional regulations or changes in the current laws regulating and affecting outdoor advertising at the federal, state or local level may have a material adverse effect on the Company's results of operations.

CONTINUING THE COMPANY'S GROWTH BY ACQUISITIONS MAY BECOME MORE DIFFICULT AND INVOLVES COSTS AND UNCERTAINTIES.

The Company has substantially increased its inventory of advertising displays through acquisitions. The Company's operating strategy involves making purchases in markets where it currently competes as well as in new markets. However, the following factors may affect the Company's ability to continue to pursue this strategy effectively.

- o The outdoor advertising market has been consolidating, and this may adversely affect the Company's ability to find suitable candidates for purchase.
- o The Company is also likely to face increased competition from other outdoor advertising companies for the companies or assets it wishes to purchase. Increased competition may lead to higher prices for outdoor advertising companies and assets and decrease those it is able to purchase.
- o The Company does not know if it will have sufficient capital resources to make purchases, obtain any required consents from the Company's lenders, or find acquisition opportunities with acceptable terms.
- o From January 1, 1999 to December 31, 1999, the Company completed 77 transactions involving the purchase of complementary outdoor advertising businesses, the most significant of which was the acquisition on September 15, 1999, of Chancellor Outdoor for \$1.6 billion. The Company has integrated these acquired assets and businesses into its existing operations, but cannot be certain that the benefits and cost savings that it anticipates from these purchases will develop.

COMPETITION FROM LARGER OUTDOOR ADVERTISERS AND OTHER FORMS OF ADVERTISING COULD HURT THE COMPANY'S PERFORMANCE.

The Company cannot be sure that in the future it will compete successfully against the current and future sources of outdoor advertising competition and competition from other media. The competitive pressure that it faces could adversely affect the Company's profitability or financial performance. The Company faces competition from other outdoor advertising companies, some of which may be larger and better financed than it is, as well as from other forms of media, including television, radio, newspapers and direct mail advertising. It must also compete with an increasing variety of other out-of-home advertising media that include advertising displays in shopping centers, malls, airports, stadiums, movie theaters and supermarkets, and on taxis, trains and buses.

In the Company's logo sign business, it currently faces competition for state-awarded service contracts from two other logo sign providers as well as local companies. Initially, the Company competed for state-awarded service contracts as they are privatized. Because these contracts expire after a limited time, the Company must compete to keep its existing contracts each time they are up for renewal.

POTENTIAL LOSSES RESULTING FROM THE FAILURE OF THE COMPANY'S CONTINGENCY PLANS RELATING TO HURRICANES COULD HURT THE COMPANY'S BUSINESS.

Although the Company has developed contingency plans designed to deal with the threat posed to advertising structures by hurricanes, it cannot guarantee that these plans will work. If these plans fail, significant losses could result.

A significant portion of its structures are located in the Mid-Atlantic and Gulf Coast regions of the United States. These areas are highly susceptible to hurricanes during the late summer and early fall. In the past, the Company has incurred significant losses

due to severe storms. These losses resulted from structural damage, overtime compensation, loss of billboards that could not be replaced under applicable laws and reduced occupancy because billboards were out of service.

The Company has determined that it is not economical to obtain insurance against losses from hurricanes and other storms. Instead, contingency plans have been developed to deal with the threat of hurricanes. For example, an attempt is made to remove the advertising faces on billboards at the onset of a storm, when possible, which permits the structures to better withstand high winds during a storm. These advertising faces are then replaced after the storm has passed. However, these plans may not be effective in the future and, if they are not, significant losses may result.

NEW LOGO SIGN CONTRACTS ARE SUBJECT TO STATE AWARD AND MAY NOT BE AWARDED TO THE COMPANY; EXISTING CONTRACTS ARE SUBJECT TO RENEWAL AND MAY NOT BE RENEWED.

A portion of the Company's revenues and operating income come from our state-awarded service contracts for logo signs. The Company cannot predict what remaining states, if any, will start logo sign programs or convert state-run logo sign programs to privately operated program. The Company competes with other parties for new state-awarded service contracts for logo signs. Even when it is awarded such a contract, the award may be challenged under state contract bidding requirements. If an award is challenged, the Company may incur delays and litigation costs.

Generally, state-awarded logo sign contracts have a term, including renewal options, of ten to twenty years. States may terminate a contract early, but in most cases must pay compensation to the logo sign provider for early termination. Typically, at the end of the term of the contract, ownership of the structures is transferred to the state without compensation to the logo sign provider. Of our 20 logo sign contracts in place at December 31, 1999, three are subject to renewal in April, June and October, 2000 and one is due to terminate in December, 2000. There is no guarantee that the Company will be able to obtain new logo sign contracts or renew its existing contracts. In addition, after a new state-awarded logo contract is received, the Company generally incurs significant start-up costs. The Company cannot guarantee that it will continue to have access to the capital necessary to finance those costs.

THE LOSS OF KEY EXECUTIVES COULD AFFECT THE COMPANY'S OPERATIONS.

The Company's success depends to a significant extent upon the continued services of its executive officers and other key management and sales personnel. Kevin P. Reilly, Jr., the Chief Executive Officer, the nine regional managers and the manager of the logo sign business, in particular, are essential to the Company's continued success. Although incentive and compensation programs have been designed to retain key employees, there are no employment contracts with any employees and none of the executive officers have signed non-compete agreements. The Company does not maintain key man insurance on its executives. If any of the executive officers or other key management and sales personnel stopped working with the Company in the future, it could have an adverse effect on its business.

INFLATION

In the last three years, inflation has not had a significant impact on the Company.

SEASONALITY

The Company's revenues and operating results have exhibited some degree of seasonality in past periods. Typically, the Company experiences its strongest financial performance in the summer and its lowest in the winter. The Company expects this trend to continue in the future. Because a significant portion of the Company's expenses are fixed, a

reduction in revenues in any quarter is likely to result in a period to period decline in operating performance and net earnings.

IMPACT OF YEAR 2000

The Company has not experienced significant disruptions to its financial or operating activities caused by failure of its computerized systems resulting from Year 2000 issues. All missions critical systems and links with key suppliers and vendors operated as expected and execution of contingency plans was not required.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

LAMAR ADVERTISING COMPANY AND LAMAR MEDIA CORP.

Lamar Advertising Company is exposed to interest rate risk in connection with variable rate debt instruments issued by its wholly-owned subsidiary Lamar Media Corp. The Company does not enter into market risk sensitive instruments for trading purposes. The information below summarizes the Company's interest rate risk associated with its principal variable rate debt instruments outstanding at December 31, 1999, and should be read in conjunction with Note 8 of the Notes to the Company's Consolidated Financial Statements.

Loans under Lamar Media Corp.'s New Bank Credit Agreement bear interest at variable rates equal to the Chase Prime Rate or LIBOR plus the applicable margin. Because the Chase Prime Rate or LIBOR may increase or decrease at any time, the Company is exposed to market risk as a result of the impact that changes in these base rates may have on the interest rate applicable to borrowings under the New Bank Credit Agreement. Increases in the interest rates applicable to borrowings under the New Bank Credit Agreement would result in increased interest expense and a reduction in the Company's net income and after tax cash flow.

At December 31, 1999, there was approximately \$776 million of aggregate indebtedness outstanding under the New Bank Credit Agreement, or approximately 48.0% of the Company's outstanding long-term debt on that date, bearing interest at variable rates. The aggregate interest expense for 1999 with respect to borrowings under the New Bank Credit Agreement and Senior Credit Facility was \$30.5 million, and the weighted average interest rate applicable to borrowings under these credit facilities during 1999 was 7.3%. Assuming that the weighted average interest rate was 200-basis points higher (that is 9.3% rather than 7.3%), then the Company's 1999 interest expense would have been approximately \$8.2 million higher resulting in a \$5.0 million decrease in the Company's 1999 net income and after tax cash flow.

The Company attempts to mitigate the interest rate risk resulting from its variable interest rate long-term debt instruments by also issuing fixed rate long-term debt instruments and maintaining a balance over time between the amount of the Company's variable rate and fixed rate indebtedness. In addition, the Company has the capability under the New Bank Credit Agreement to fix the interest rates applicable to its borrowings at an amount equal to LIBOR plus the applicable margin for periods of up to twelve months, which would allow the Company to mitigate the impact of short-term fluctuations in market interest rates. In the event of an increase in interest rates, the Company may take further actions to mitigate its exposure. The Company cannot guarantee, however, that the actions that it may take to mitigate this risk will be feasible or that, if these actions are taken, that they will be effective.

Board of Directors
Lamar Advertising Company:

We have audited the accompanying consolidated balance sheets of Lamar Advertising Company and subsidiaries as of December 31, 1999 and 1998, and the related consolidated statements of operations, comprehensive income, stockholders' equity and cash flows for each of the years in the three-year period ended December 31, 1999. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Lamar Advertising Company and subsidiaries as of December 31, 1999 and 1998, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 1999, in conformity with generally accepted accounting principles.

(a) Nature of Business Lamar

Advertising Company ("LAC" or the "Company") is engaged in the outdoor advertising business operating approximately 116,800 outdoor advertising displays in 42 states. The Company's operating strategy is to be the leading provider of outdoor advertising services in most of the markets it serves.

In addition, the Company operates a logo sign business in 20 states throughout the United States and in 1 province of Canada. Logo signs are erected pursuant to state-awarded service contracts on public rights-of-way near highway exits and deliver brand name information on available gas, food, lodging and camping services. Included in the Company's logo sign business are tourism signing contracts.

(b) Principles of Consolidation

The accompanying consolidated financial statements include Lamar Advertising Company, its wholly-owned subsidiary, Lamar Media Corp. ("Lamar Media"), and its majority-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

(c) Property, Plant and Equipment

Property, plant and equipment are stated at cost. Depreciation is calculated using accelerated and straight-line methods over the estimated useful lives of the assets.

(d) Intangible Assets

Intangible assets, consisting primarily of goodwill, site locations, customer lists and contracts, and non-competition agreements are amortized using the straight-line method over the assets estimated useful lives, generally from 5 to 15 years.

Debt issuance costs are deferred and amortized over the terms of the related credit facilities using the interest method.

(e) Investment Securities

Investment securities at December 31, 1997 consisted of the Company's investment in approximately 340,000 shares of common stock of Wireless One, Inc., a publicly-held company in the wireless cable business.

The Wireless One, Inc. shares were classified as available-for-sale at December 31, 1997 and were carried at fair value with the unrealized gain or loss, net of the related tax effect, reported as a separate component of stockholders' equity. These shares were sold in May, 1998, resulting in a realized loss of \$875.

(f) Impairment of Long-Lived Assets and Long-Lived Assets to be Disposed of

The Company accounts for long-lived assets in accordance with the provisions of Statement of Financial Accounting Standards (SFAS) No. 121, "Accounting for the Impairment of Long-Lived Assets and Long Lived Assets to be Disposed of." SFAS No. 121 requires that long-lived assets and certain identifiable intangibles be reviewed for impairment whenever events or changes in circumstances indicated that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

The Company assesses the recoverability of enterprise level goodwill by determining whether the unamortized goodwill balance can be recovered through undiscounted future results of the Company's operations. The amount of enterprise-level goodwill impairment, if any, is measured based on projected discounted future results using a discount rate reflecting the Company's average cost of funds.

(g) Deferred Income

Deferred income consists principally of advertising revenue received in advance and gains resulting from the sale of certain assets to related parties. Deferred advertising revenue is recognized in income as services are provided over the term of the contract. Deferred gains are recognized in income in the consolidated financial statements at the time the assets are sold to an unrelated party or otherwise disposed of.

(h) Revenue Recognition

The Company recognizes revenue from outdoor and logo sign advertising contracts, net of agency commissions, on an accrual basis ratably over the term of the contracts, as advertising services are provided.

(i) Income Taxes

The Company uses the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets

and liabilities are measured using tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(j) Earnings Per Share

Earnings per share are computed in accordance with SFAS No. 128, "Earnings Per Share." The calculation of basic earnings per share excludes any dilutive effect of stock options and convertible debt, while diluted earnings per share includes the dilutive effect of stock options and convertible debt.

(k) Stock Option Plan

The Company accounts for its stock option plan in accordance with the provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees", and related interpretations. As such, compensation expense is recorded on the date of grant only if the current market price of the underlying stock exceeds the exercise price. SFAS No. 123, "Accounting for Stock-Based Compensation", permits entities to recognize as expense over the vesting period the fair value of all stock-based awards on the date of grant. Alternatively, SFAS No. 123 also allows entities to continue to apply the provisions of APB Opinion No. 25 and provide pro forma net income and pro forma earnings per share disclosures for employee stock option grants made in 1995 and future years as if the fair-value-based method defined in SFAS No. 123 has been applied. The Company has elected to continue to apply the provisions of APB Opinion No. 25 and provide the pro forma disclosure provisions of SFAS No. 123.

(l) Cash and Cash Equivalents

The Company considers all highly-liquid investments with original maturities of three months or less to be cash equivalents.

(m) Reclassification of Prior Year Amounts

Certain amounts in the prior years' consolidated financial statements have been reclassified to conform to the current year presentation. These reclassifications had no effect on previously reported net earnings.

(n) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Deferred tax assets	26,911	7,858
	-----	-----
Net deferred tax liability	\$(112,412)	\$ (25,613)
	=====	=====

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible.

Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more likely than not the Company will realize the benefits of these deductible differences. The amount of the deferred tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carryforward period are reduced.

Net proceeds to the Company after underwriting discounts from the equity offering were \$219.8 million. The new shares of Series AA preferred stock, however, are entitled to one vote per share.

The rights of the Class A and Class B common stock are equal in all respects, except holders of Class B common stock have ten votes per share on all matters in which the holders of common stock are entitled to vote and holders of Class A common stock have one vote per share on such matters. (12) Stock Option Plan

In 1996, the Company adopted the 1996 Equity Incentive Plan (the "1996 Plan"). The purpose of the 1996 Plan is to attract and retain key employees and consultants of the Company. The 1996 Plan authorizes the grant of stock options, stock appreciation rights and restricted stock to employees and consultants of the Company capable of contributing to the Company's performance. Options granted under the 1996 Plan generally become exercisable over a five-year period and expire 10 years from the date of grant. The Company initially reserved an aggregate of 3,000,000 shares of Class A common stock (as adjusted for the Company's February 1998 three-for-two stock split) for awards under the 1996 Plan. In September, 1998, the Board of Directors of the Company voted to increase the number of shares reserved for issuance under the 1996 Plan by 1,000,000 shares to 4,000,000 shares.

In August, 1999, the Board of Directors voted subject to stockholder approval, to increase the number of shares of Class A common stock reserved for issuance under the 1996 plan by 1,000,000 shares to 5,000,000 shares.

The Company has adopted the disclosure-only provisions of Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation." Accordingly, no compensation cost has been recognized for the stock option grants. Had compensation cost for the Company's stock option plan been determined based on the fair value at the grant date consistent with the provisions of SFAS No. 123, the Company's net earnings (loss) and earnings (loss) per share would have been reduced to the pro forma amounts indicated below:

	1999 -----	1998 -----	1997 -----
Net earnings (loss) applicable to common stock - as reported	\$(44,900) =====	(12,255) =====	2,476 =====
Net earnings (loss) applicable to common stock - pro forma	\$(50,073) =====	(15,145) =====	(603) =====
Net earnings (loss) per common share - as reported (basic and diluted)	\$ (.65) =====	(.24) =====	.05 =====
Net earnings (loss) per common share - pro forma (basic and diluted)	\$ (.73) =====	(.29) =====	(.01) =====

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions used:

Grant Year -----	Dividend Yield -----	Expected Volatility -----	Risk Free Interest Rate -----	Expected Lives -----
1999	0%	54%	6%	4
1998	0%	59%	5%	4

(15) Disclosures About Fair Value of Financial Instruments

The following table presents the carrying amounts and estimated fair values of the Company's financial instruments at December 31, 1999 and 1998. The fair value of the financial instrument is defined as the amount at which the instrument could be exchanged in a current transaction between willing parties.

	1999		1998	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Long-term debt	\$1,611,463	\$1,613,209	\$ 827,453	\$ 874,091

The estimated fair value amounts have been determined by the Company using available market information and appropriate valuation methodologies as follows:

- o The carrying amounts of cash and cash equivalents, receivables, trade accounts payable, accrued expenses, and deferred income approximate fair value because of the short term nature of these items.
- o The fair value of long-term debt is based upon market quotes obtained from dealers where available and by discounting future cash flows at rates currently available to the Company for similar instruments when quoted market rates are not available.

Fair value estimates are subject to inherent limitations. Estimates of fair values are made at a specific point in time, based on relevant market information and information about the financial instrument. The estimated fair values of financial instruments presented above are not necessarily indicative of amounts the Company might realize in actual market transactions. Estimates of fair value are subjective in nature and involve uncertainties and matters of significant judgement and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Lamar Media Corp. and subsidiaries as of December 31, 1999 and 1998, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 1999, in conformity with generally accepted accounting principles.

As discussed in note 17 to the consolidated financial statements of Lamar Advertising Company, the Company changed its method of accounting for the costs of start-up activities in 1999.

Notes to Consolidated Financial Statements
(Dollars in thousands, except share and per share data)

(1) Significant Accounting Policies

(a) Nature of Business

On July 20, 1999, Lamar Advertising Company reorganized into a new holding company structure. As a result of this reorganization (1) the former Lamar Advertising Company became a wholly owned subsidiary of a newly formed holding company, (2) the name of the former Lamar Advertising Company was changed to Lamar Media Corp., (3) the name of the new holding company became Lamar Advertising Company, (4) the outstanding shares of capital stock of the former Lamar Advertising Company, including the Class A common stock, were automatically converted, on a share for share basis, into identical shares of capital stock of the new holding company and (5) the Class A common stock of the new holding company commenced trading on the Nasdaq National Market under the symbol "LAMR" instead of the Class A common stock of the former Lamar Advertising Company. In addition, following the holding company reorganization, substantially all of the former Lamar Advertising Company's debt obligations, including the bank credit facility and other long-term debt remained the obligations of Lamar Media. Under Delaware law, the reorganization did not require the approval of the stockholders of the former Lamar Advertising Company. The purpose of the reorganization was to provide Lamar Advertising Company with a more flexible capital structure and to enhance its financing options. The business operations of the former Lamar Advertising Company and its subsidiaries, including the Company, has not changed as a result of the reorganization.

Lamar Media Corp. is engaged in the outdoor advertising business operating approximately 116,800 outdoor advertising displays in 42 states. Lamar Media's operating strategy is to be the leading provider of outdoor advertising services in most of the markets it serves.

In addition, Lamar Media operates a logo sign business in 20 states throughout the United States and in 1 province of Canada. Logo signs are erected pursuant to state-awarded service contracts on public rights-of-way near highway exits and deliver brand name information on available gas, food, lodging and camping services. Included in the Company's logo sign business are tourism signing contracts.

Certain footnotes are not provided for the accompanying financial statements as the information in notes 2, 4, 6, 11 through 15, 17 and portions of notes 1, 8 and 10 to the consolidated financial statements of Lamar Advertising Company included elsewhere in this Report is substantially equivalent to that required for the consolidated financial statements of Lamar Media Corp. Earnings per share data is not provided for the operating results of Lamar Media Corp. as it is a wholly owned subsidiary of Lamar Advertising Company.

Notes to Consolidated Financial Statements
(Dollars in thousands, except share and per share data)

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible.

Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more likely than not the Company will realize the benefits of these deductible differences. The amount of the deferred tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carryforward period are reduced.

JOINDER AGREEMENT

JOINDER AGREEMENT dated as of December 23, 1999, by the undersigned, (the "Additional Subsidiary Guarantor"), in favor of The Chase Manhattan Bank, as administrative agent for the Lenders party to the Credit Agreement referred to below (in such capacity, together with its successors in such capacity, the "Administrative Agent").

Lamar Media Corp. (formerly Lamar Advertising Company), a Delaware corporation (the "Borrower"), and certain of its subsidiaries (collectively, the "Existing Subsidiary Guarantors" and, together with the Borrower, the "Securing Parties") are parties to a Credit Agreement dated August 13, 1999 (as modified and supplemented and in effect from time to time, the "Credit Agreement", providing, subject to the terms and conditions thereof, for extensions of credit (by means of loans and letters of credit) to be made by the lenders therein (collectively, together with any entity that becomes a "Lender" party to the Credit Agreement after the date hereof as provided therein, the "Lenders" and, together with Administrative Agent and any successors or assigns of any of the foregoing, the "Secured Parties") to the Borrower in an aggregate principal or face amount not exceeding \$1,000,000,000 (which, in the circumstances contemplated by Section 2.01(d) thereof, may be increased to \$1,400,000,000). In addition, the Borrower may from time to time be obligated to one or more of the Lenders under the Credit Agreement in respect of Hedging Agreements under and as defined in the Credit Agreement (collectively, the "Hedging Agreements").

In connection with the Credit Agreement, the Borrower, the Existing Subsidiary Guarantors and the Administrative Agent are parties to the Pledge Agreement dated September 15, 1999 (the "Pledge Agreement") pursuant to which the Securing Parties have, inter alia, granted a security interest in the Collateral (as defined in the Pledge Agreement) as collateral security for the Secured Obligations (as so defined). Terms defined in the Pledge Agreement are used herein as defined therein.

To induce the Secured Parties to enter into the Credit Agreement, and to extend credit thereunder and to extend credit to the Borrower under Hedging Agreements, and for other good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the Additional Subsidiary Guarantor has agreed to become a party to the Credit Agreement and the Pledge Agreement as a "Subsidiary Guarantor" thereunder, and to pledge and grant a security interest in the Collateral (as defined in the Pledge Agreement).

Accordingly, the parties hereto agree as follows:

Section 1. Definitions. Terms defined in the Credit Agreement are used herein as defined therein.

Section 2. Joinder to Agreements. Effective upon the execution and delivery hereof, the Additional Subsidiary Guarantor hereby agrees that it shall become "Subsidiary Guarantor" under and for all purposes of the Credit Agreement and the Pledge Agreement with all the rights and obligations of a Subsidiary Guarantor thereunder. Without limiting the generality of the foregoing, the Additional Subsidiary Guarantor hereby:
